

Swivl Link

\$99 LINK connects Swivl Audio to any USB enabled computer

Bundled with either Swivl C3 or C5 packages, Link brings the ideal configuration for larger classrooms. Through a wireless connection, connect Swivl Robot and a computer to provide the best experience for a remote participant – teacher and students are heard and seen.

Link	Audio	Professional quality wireless DECT multi-channel solution
	Compatibility	Any computer with USB-A connection
	Function	Wireless connection to Swivl Robot for Integrated Configuration
